

INDUCTIVE  
BIBLE STUDY  
SHEET **FOR KIDS**  
(Ages 6-12)

Inductive Bible Study is a method to study and understand the Word of God through 3 main steps: observation, interpretation, and application. (Parents, we suggest you work through this sheet together with your child.)

- Start with **prayer**, asking God to guide you and speak to you.
- **Observe** the text. What does it say? Answer *who, what, when, where, why, & how*. Make note of keywords. Take (individual) notes.
- **Interpretation** - What does the text mean? Keep in mind the *context*; consider *cross references* and *related passages*. Use Scripture to interpret Scripture. Look for the *singular meaning*.
- **Application** - What does the text teach and what is God's instruction to me?
- Ultimately, the purpose of any study should be **transformation**. God's Word can change you!

Write down the passage you are studying (Example: John 1:1-5)

**Observe** the passage. Fill in the sections below:

WHO is it written to	WHY was it written	KEYWORDS/PHRASES
WHAT is it about	WHEN was it written	
WHERE was it written/Where was the setting	HOW is it written (tone style, etc.)	

**Interpret** the text. What does it mean?

	SIMILAR PASSAGES
--	------------------

How does it **apply** to your life? How can you live it out?
